3.2.1: Institution has created an ecosystem for innovations, Indian Knowledge System (IKS), including awareness about IPR, establishment of IPR cell, Incubation centre and other initiatives for the creation and transfer of knowledge/technology and the outcomes of the same are evident

The College creates an atmosphere for students and teachers to share technical knowledge in order to stimulate innovation via the incubation center. The college forms an R&D cell under the leadership of the principal to assist research endeavors. The research and development cell focuses on small and large-scale student activities that are financed by funding organizations and finished throughout the academic year. Faculty and students may publish high-quality articles in respected journals with a high impact factor with the help of the R&D division. The R&D cell offers training on how to write a paper, avoid plagiarism, and find reliable journals, all of which help instructors and students achieve their research commitments. The administration is particularly interested in research activities and encourages academics and students to explore novel ideas by giving the necessary infrastructure and financial assistance. Every year, students from many fields compete in the Ideathon to produce unique and original ideas. The College's Entrepreneur Development Cell (EDC) strives to nurture entrepreneurs who generate employment via technology by giving students opportunity to build management and leadership abilities, attend and participate in courses, and tour industries. Furthermore, the EDC

attempts to improve students' management and leadership talents in order to satisfy global demand and new employment-creating problems. The students are

Entrepreneurs are urged to take the initiative, seek self-employment, and develop a small or microbusiness. Resources

Planning, personnel management, financial planning, marketing management, and manufacturing competence are among the skill sets necessary to build an entrepreneur. EDC wants to introduce budding engineers to these areas of need so that they may become successful businesses. The college cell's aim is to bridge the gap between business and academia by providing students with access to learning opportunities and creating an atmosphere suitable to their research and social responsibilities.
